Marquet International launches CheckOutYourPartner.com – offering exclusive matrimonial investigations and screening service focused on significant others

Boston – October 7, 2013 – Marquet International Ltd. announced today that it has launched CheckOutYourPartner.com, a website through which it offers a battery of matrimonial investigations service along with a background screening service for high net-worth individuals seeking to learn more about the track records, backgrounds and histories of potential spouses and significant others.

Chris Marquet, CEO of Marquet International commented, “Since 2007 we have provided high-end matrimonial investigations and due diligence services to exclusive consumers on an ad hoc basis. With CheckOutYourPartner, we have now codified the services as a distinct offering for our valued non-commercial clients.”

In matrimonial dispute cases, CheckOutYourPartner provides a range of investigative services, including:

- Verifying, determining & documenting fidelity issues;
- Identifying and documenting personal problems and vices;
- Assessing and tracing assets;
- Financial investigations and separation analysis;
- Computer forensic analysis;
- Developing evidence;
- Providing ongoing stationary and mobile monitoring;
- Risk and threat assessments;
- Documenting abuse;
- Providing protective security and consulting; and,
- Witness development.

KnowYourPartner also provides a high level vetting service of potential spouses and significant others in response to the explosion of online dating activity in the US. “If they do it at all, online dating services do not do an adequate job of screening their members for serious issues such as criminal histories, financial problems and other risk factors. CheckOutYourPartner assists a discerning clientele with the vetting process in order to align hearts with minds.”

Unlike the many online database information aggregators purporting to provide “background investigations,” CheckOutYourPartner offers “hand crafted” professional investigative services for clients seeking thorough, verified and accurate information obtained in a legal and discreet manner. “These days there is a tremendous amount of information out there online – much of which is irrelevant or inaccurate – which has to be sifted through. Nevertheless, this must be augmented with more traditional fact finding methods as there is no substitute for boots on the ground,” said Marquet.
